TECHNICAL DATA SHEET: C-22 CLEANER

Product Overview

C-22 is a mild, everyday cleaner that is used to gently remove dirt and grime without leaving a film behind. For hard to remove materials such as oil, grease and grime use C-23.

Uses and Benefits

C-22 was developed as an everyday, economical cleaner safe for use on our entire coatings line.

Surface Preparation

Sweep up loose dirt and debris before beginning wet cleaning.

Mixing

Dilution of 1:1 may be required to avoid excessive foaming. Can be used in an auto scrubber at 1:1 dilution.

Application

Apply liberally to surface and agitate with soft bristle brush. Rinse with clean water.

* Dispose of material, containers, solvents, etc., per Federal, State and local guideline, rules and laws
